Wanted Person Geographic Limits and Locating

When an agency receives a wanted person hit and that agency is **outside** the court issued geographic limits specified, the warrant may **not** be executed, a request for confirmation should **not** be sent, and the record should **not** be located.

There have been numerous instances whereby such entries are located in error. This causes unnecessary work for the entering agency as the only way to remove the erroneous locate is to void and reenter the record.

As a reminder, operators should **NOT** locate wanted person entries when their agency is outside the court issued geographic limits specified in the CHF record.

The wanted person caveat includes the following reminder: **DO NOT LOCATE THIS RECORD IF YOUR AGENCY IS OUTSIDE THE GEOGRAPHIC LIMITS SPECIFIED.**

For assistance please contact the Help Desk at 866/LEADS-00.
