LEADS Daily Bulletin

July 26, 2022

nexTEST Integration Notice

On **07/26/2022** the nexTEST system will be offline while the integration with LEADS 3.0 Configurator is processing. This will enable the systems to communicate, updating certifications in Configurator when a user certifies/recertifies their LEADS certification.

During the initial integration on Tuesday 07/26/2022, nexTEST will be taken offline for up to twenty-four (24) hours. During this time LACs and users will be unable to access nexTEST. If you are scheduled to recertify between 07/20/2022 and 07/27/2022, LEADS Administration strongly encourages users to complete their certification prior to 07/26/2022.

Please do not contact the ISP LEADS Administration or the ISP HelpDesk regarding this matter. While the integration is processing, there is nothing we can do to allow access to nexTEST. Access will be restored on 07/27/2022, with limited access for TAC's/LAC's. A Daily Bulletin will be posted on 07/27/2022 with further information on the updates being made.
