Security Awareness Training for those NOT LEADS Certified

Each agency is responsible for providing the appropriate level of security awareness training to staff who have un-escorted access to physically secure areas that contain Criminal Justice Information. In order to help agencies deliver security awareness training to their employees and contractors who are not LEADS certified and are un-escorted around CJI (e.g., Janitorial and IT staff), the Illinois State Police have procured and implemented a new security awareness training site, CJIS Online. To learn more about CJIS Online please visit our https://isp.illinois.gov/LawEnforcement/LEADSSecurity located on our Security page on the LEADS3.0 website.

If you have any questions regarding CJIS Online, please contact our Help Desk at 866/LEADS-00 and specify that this is a CJIS Online question.
