## LEADS Daily Bulletin April 27, 2023

## **Entering/Modifying ORI Capability in CHF Records**

LEADS 3.0 technology overcomes the LEADS 2000 programmatic restriction which automatically identified a Hot File record owner ORI as the **agency who physically entered the record**, not the **authorizing agency the record was entered on behalf of (ORA)**. Entering (servicing) agencies should now use the actual authority/record owner (serviced agency) ORI when establishing Hot File records.

<u>Records already on file prior to LEADS 3.0 implementation should be Modified to reflect the</u> <u>correct owner ORI which includes an automatic translation of the corresponding ORA.</u> For Messenger users, this requires the serviced agency ORI be included in the ORI drop-down in Hot File formats. If an ORI is not listed in a drop-down, LEADS Administration should be contacted to add any ORIs necessary.

**To modify** a Records ORI, follow the below steps:

- Query the Record, Select Modify from the Hot Links choices, or open the modify form from the Forms Tree.
- Complete the Header Information, (Message key and ORI of the Entering agency)
- Record Identifiers will have auto-populated. (<u>Double check to ensure modifying the</u> <u>correct record</u>).
- Message Information
  - Leave **MKE**, (message key) field blank
  - **ORI** choose the ORI of the agency who is responsible for the record from your dropdown choices.
- Select Submit. User will receive acknowledgement.
- Query the record again to ensure the ORI has changed.
  - Retain acknowledgement and updated record information with original entry.

🔲 MV - Modify Vehicle						
Header Information						
* <u>M</u> essage Key	<u>O</u> RI					
MV = Modify Stolen Vehicle ▼ IL0840000 = SO SANGAMON CO IL ▼
