SOS Emergency Contact Information

In 2009, LEADS programming was changed to allow for an inquiry to obtain emergency contact information when it is included on an Illinois driver's license/photo ID response. This is done using message key (MKE) ZK.

The existence of emergency contact information will be indicated by a notation at the bottom of the DL/PID response.

Example:

SOS 01162017 0933

To obtain the emergency contact information details, change the MKE on the LEADS inquiry format to ZK and re-inquire on the DLN/PID:

The screenshot shows a web-based inquiry form with the following elements:

- Top left: "9-10" and a blue accessibility icon.
- Top navigation: "License", "Name", "Driver's License", "VIN", "Print", "Reset", "Unit", and "Send" buttons.
- Form fields: "ZK" (dropdown), "Requestor" (text), "LDS" (text), "HST" (text), "LIC" (text), "LIY" (text), "LIS" (text), "LIT" (text), "NAM" (text), "SEX" (dropdown), "RAC" (dropdown), "DOB" (text), "DLN" (text with value "P14247552009"), "DLS" (text), "VIN" (text), "VYR" (text), and "VMA" (text).
