Previous Inquiry Notification (PIN)

For any given record, PIN responses will ONLY display the **most recent 10** stations (CDCs) who inquired on a specific record.

- If an individual queries this record multiple times, only the ten (10) most recent searches will be displayed on the PIN.
 - If agencies require further information on inquiries on a specific record, the agencies will have to request an offline search to obtain the full list of stations (CDCs) which have inquired on the record for a specific time period. (Refer to the LEADS Manual, OTHER Transactions Chapter for Offline Search requests, https://isp.illinois.gov/LawEnforcement/LEADS3Manual)
