UPDATES - Testing of Breath, Blood and Urine for Alcohol, Other Drugs, and Intoxicating Compounds Act

Effective, August 12, 2022, *Testing of Breath, Blood and Urine for Alcohol, Other Drugs, and Intoxicating Compounds Act,* 20 III. Adm. Code 1286 has been updated and published in the *Illinois Register*. The following items are significant changes and begin on page 225 of Issue 33 – August 12, 2022 – Pages 14,144–14,392:

- The initial in-person training class will be reduced to a minimum of eight (8) total hours of instruction.
- Language has been clarified to explain that once an officer has completed both the written/digital examination and the proficiency test, the officer may operate evidential breath testing instruments.
- Language has been clarified to explain that both a certificate of training and/or a Breath Alcohol Operator (BAO)
 license are valid documents to show that an officer has successfully completed all required training and can
 operate evidential breath testing instruments.
- Only the following instruments are approved for use in Illinois:
 - Intoximeters EC/IR II, manufactured by Intoximeters, Inc.
 - Intoximeters EC/IR II, with serial numbers 10001 and above, manufactured by Intoximeters, Inc.
 - Alco-Sensor VXL, in conjunction with a printer, manufactured by Intoximeters, Inc.
 - Alcosensor FST, manufactured by Intoximeters, Inc.
 - Alco-Sensor VXL, manufactured by Intoximeters, Inc.
 - Intoxilyzer 500, manufactured by CMI, Inc.

As always, the Illinois State Police, Alcohol and Substance Testing Section is available to support and assist your agency in any way possible. If these changes cause undue hardship for you or your agency, please reach out to the Alcohol and Substance Testing Section at <u>ISP.BAO.Training@illinois.gov</u>. Thank you for your prompt attention to these changes.
