LEADS Number Identifiers

LEADS alignment with NCIC included changes to LEADS numbers. All previous LEADS numbers were modified during the transition to the LEADS 3.0 system in 2021. In order to query, modify, cancel or clear users must use the new LEADS number for the record they are working with. The actual numbers did not change, *only* the preceding letter associated with the LEADS numbers changed, see the chart below. **For example:**

Previous LEADS: L21A1234 LEADS 3.0: P21A1234
