LEADS 3.0 Training Available on the ISP Website

The Illinois State Police has added all LEADS 3.0 training to the ISP website (www.isp.illinois.gov) under the Law Enforcement Resources tab. The training modules are offered in both downloadable pdf format as well as video format. LEADS users may access a particular topic, ex. Wanted Persons, or access the training in its entirety as delivered in the LEADS 3.0 training webinars.

The LEADS 3.0 references and resources sections also contain the LEADS Daily Briefing, the LEADS 3.0 Operating Manual, the NCIC Operating Manual and Code Manual, links to LEADS Operator Certification Training via nexTEST, and guidance for responding to your online LEADS Administrative and Technical Audits.
