SOS Registration Response Change – Fuel Type

Based upon pending legislation, the Secretary of State (SOS) Vehicle Services Division (VSD) will now print the Fuel Literal (GAS, DIESEL, HYBRID, ELECTRIC, FLEXIBLE) on the license renewal sticker, rather than the sticker number. The purpose is primarily for first responders at a crash when removing subjects from the vehicle would require cutting into the internals of the vehicle. Indication of the fuel type of vehicle will assist in determining the safest method of extraction. Registration responses will display the fuel type starting November 9, 2026, examples below.

For more information, please contact the SOS Police Inquiry Unit at 217/785-0309.
