LEADS Daily Briefing
for March 18, 2021

Supplemental License Plate Data

When entering supplemental license plate data into NCIC, you may have noticed that there are no fields for 'LIS', 'LIT' or 'LIY'. This also applies when entering additional vehicle and driver's licenses. There are fields for VIN, but none for 'VMA', 'VMO,' 'VYR','VCO,' or 'VST.' OLN does not have separate fields for 'OLS' and 'OLY.'

These are to be entered in the following manner:

Field indicator is from drop-down box.

```
LIS/ 123456.il.2005.PC
```
There should be no period at the end, as the LEADS computer will automatically enter it for you.

```
VIN/ 1GAP13678HG432890.2003.PONT.GRA.4D.RED
```
There should be no period at the end, but if any data is unavailable, such as 'vmo'. a period should be inserted at that point.

Example:

```
VIN/ 1F845TYSJK799123.1991.FORD..2D.BLU
```

Example of an alias OLN:

```
OLN/ X0000000000.il.2005
```

For assistance please contact the Help Desk at 866/LEADS-00.
