

# LEADS Daily Bulletin

July 17, 2024

**SEX OFFENDER/VOAY ENDING DATE AT ADDRESS (EDA)**

If an agency has completed the EDA field when entering an offender address, any subsequent Modify to change the Address will require both a new Beginning Date At Address (BDA) and either # in the EDA field or 00000000 to remove EDA field data. Using the \* in the EDA will clear ALL existing address data so the entire set of fields can be completed with new address data. The EDA field is optional and may be left blank.

If an EDA is already present in a record and needs to be Modified, the new EDA can be typed into the field in the MXS format and changed.

If you have any questions or need help, please contact the ISP Help Desk
