

**October 16. 2024**

There are instances when an inquiry by DLN will not yield a search of the LEADS and NCIC hot files. For example, an inquiry by Illinois DLN that results in a duplicate record response will not search the CHF for matching records. (This is also true when a Z5 inquiry generates a duplicate 10-27 response). Similarly, out of state drivers license inquiries performed by out of state OLN will not search the hot files; only a response from the state's driver's license files will be returned.

For assistance please contact the Help Desk at 866/LEADS-00.
