Violent Person File

NCIC Violent Person

The Violent Person File (VPF) was designed to alert law enforcement officers that an individual they are encountering may have the propensity for violence against law enforcement.

The NCIC Violent Person file is *separate* from the **LEADS only** Field Notification Program (FNP). Agencies may enter the same subject into VPF *and* FNP as long as the entry criteria are met for both (FNP entry criteria are outlined in the LEADS 3.0 Manual, FNP Chapter).

An entry into the VPF should be made when at least one of the following criteria has been met:

- Offender has been convicted for assault or murder/homicide of a law enforcement officer, fleeing, resisting arrest, or any such statute which involves violence against law enforcement.
- Offender has been convicted of a violent offense against a person to include homicide and attempted homicide.
- Offender has been convicted of a violent offense against a person where a firearm or weapon was used.
- A law enforcement agency, based on its official investigatory duties, reasonably believes that the individual has seriously expressed his or her intent to commit an act of unlawful violence against a member of the law enforcement or criminal justice community.

Message Key (MKE) Codes

Message	MKE	Translation
Entry	EVP	ENTER VIOLENT PERSON
	EVPC	ENTER VIOLENT PERSON-CAUTION
Modify	MVP	
Cancel	XVP
