LEADS Audits

The Illinois State Police (ISP) serves as the CJIS Systems Agency (CSA) for the State of Illinois. As the CSA, the ISP is required to conduct triennial audits of Illinois agencies with access to LEADS. These audits consist of *NCIC Administrative Audits*, *LEADS Record Review Audits*, and *Information Technology Security Audits*. All audits are currently being conducted using the CJIS-Audit program hosted by Peak Performance.

It is important to understand these audits are not all conducted at the same time nor by the same team of auditors. Agencies may receive multiple audits from the ISP within a three-year period and could consist of a different audit than one an agency has previously completed.

NOTE – All agencies being audited have a duty to comply with the assigned audit. See the [LEADS Rules & Regulations](#), section XII. LEADS TERMINAL AGENCY AUDIT POLICY AND PROCEDURES for reference.

For questions or issues with an audit, the auditor working with an agency should be the first point of contact.

If further assistance is needed, please contact the ISP Help Desk by either emailing your questions to ISP.HelpDesk@illinois.gov or by calling 866/LEADS-00.
