I-UCR Mental Health Incident Reporting

The Illinois State Police I-UCR Program is pleased to announce the **Mental Health Incident** Report is now available on the Illinois NIBRS Repository Test site (INRT) in the Data Center. Test data is needed from agencies at this time. Please log into the INRT and submit as many forms as you like from September 11th to September 20th. We are working towards a “go-live” date in October 2021. As always, everyone in the I-UCR Program appreciates the agency’s willingness to help improve reporting.

****If you do not have credentials to sign into the INRT, please send an email to ISP.UCR.Access@Illinois.gov ****
