nexTEST Integration Notice

On **07/26/2022** the nexTEST system will be integrated with the LEADS 3.0 Configurator. This will enable the systems to communicate, updating certifications in Configurator when a user certifies/recertifies their LEADS certification.

During the initial integration on Tuesday 07/26/2022, nexTEST will be taken offline for up to twenty-four (24) hours. During this time LACs and users will be unable to access nexTEST. If you are scheduled to recertify between 07/20/2022 and 07/27/2022, LEADS Administration strongly encourages users to complete their certification prior to 07/26/2022.
