Supplemental Format Update – SMT Fields Added

Computerized Hot File (CHF) Persons records now have the ability to enter up to three (3) Scars, Marks, and Tattoos (SMT) per transaction. Previously, only one (1) SMT could be added per transaction.

As a reminder, a maximum of nine (9) additional identifiers of various kinds may be added per transaction. For example, three (3) Alias Names, one (1) Alias DOB, three (3) SMTs, one (1) SOC, and one (1) SID, for a total of nine (9) identifiers. To add more identifiers, a separate supplemental data entry must be submitted.

Additional information on Supplemental Data can be found in the NCIC Operating Manual.

The screenshot shows a software window titled "EN - Enter Wanted Supplemental". The form is organized into several sections:
