NIBRS Transition Deadline

If your agency is currently submitting UCR summary data through the iClear summary reporting site, please be aware this site will sunset on **December 31, 2022.** After that date, the I-UCR program will only accept National Incident-Based Reporting System (NIBRS) reporting.

The I-UCR Program has posted the latest version of the NIBRS User Manual, version date 4/2021, and is available at https://isp.illinois.gov/CrimeReporting/NIBRS. Most questions regarding Incident Based Reporting can be found in this user guide.

To obtain access to the Illinois NIBRS Repository Test site (INRT) [http://iltest.nibrs.com] and begin your transition please send an email to ISP.UCR.Access@illinois.gov.

To become certified by the FBI, agencies must successfully submit three (3) consecutive months of data to the INRT with an error rate of 4% or less. Agencies will have three options to upload their crime reporting data: manual entry (User Interface), XML manual upload, and through XML web services (machine to machine).

If you need further assistance with your agency's NIBRS transition, please do not hesitate to contact the NIBRS Liaison at ISP.NIBRS.Transition@illinois.gov.
