NARRATIVE STATEMENT:

(Provide a detailed summary of system operations for a modified 9-1-1 plan. Also, if incorporating an NG9-1-1 solution, please include the additional items listed below pursuant to 1325.205 b)12).

- 2) Explain the national standards, protocols and/or operating measures that will be followed.
- 3) Explain what measures have been taken to create a robust, reliable and diverse/redundant network and whether other 9-1-1 Authorities will be sharing the equipment.
- 4) Explain how the existing 9-1-1 traditional legacy wireline, wireless and VoIP network, along with the databases, will interface and/or be transitioned into the NG9-1-1 system.
- 5) Explain how split exchanges will be handled.
- 6) Explain how the databases will be maintained and how address errors will be corrected and updated on a continuing basis.
- 7) Explain who will be responsible for updating and maintaining the data, at a minimum on a daily basis Monday through Friday.
- 8) Explain what security measures will be placed on the IP 9-1-1 network and equipment to safeguard it from malicious attacks or threats to the system operation and what level of confidentiality will be placed on the system in order to keep unauthorized individuals from accessing it.

Plan Narrative:

The modification is being requested by the Joint Central Lake County ETSB and the North Chicago ETSB to combine 9-1-1- dispatch centers. Both agencies have entered into intergovernmental agreements to combine their existing E9-1-1 public safety answering points (PSAP) into a single PSAP. To accomplish this, North Chicago will close it's dispatch center and move all dispatch and emergency telephone answering responsibility to Mundelein's E9-1-1 site. The consolidated dispatch center will provide E9-11-call handling and emergency communications for the following agencies:

Village of Mundelein- Police and Fire Departments
Village of Winthrop Harbor- Police and Fire Departments
Winthrop Harbor Fire Protection District
City of North Chicago- Police and Fire Departments

Utilizing one PSAP instead of two will reduce the number of employees required to staff both PSAPs, increase efficiency of staff, and there will be a long-term capital cost savings.

Mundelein, North Chicago and Winthrop Harbor will form a JETSB to be known as the Joint Central Lake County Emergency Telephone System Board. The board will be comprised of nine (9) total members. Each party will have at least one active member from the fire and police departments on the board. Other board members will be represented based on a proportional formula of 9-1-1- surcharge revenue.

Ordinances have been approved by each agency to establish the JETSB. The Mundelein E9-1-1 center is located in the Mundelein Police Department. The center was constructed in 2002 in compliance with NFPA 1221 standards. The dispatch center is on the first floor of the facility and is secured from outside access. Employees must enter through a secure entry once they have entered the lobby of the building. The center is equipped with five (5) height adjustable work-stations.

Telephones are answered by Zetron Max Call Taker for 9-1-1 lines and ShoreTel VOIP telephones for administrative lines. The Zetron Max is equipped to handle additional 9-1-1 trunks and 10-digit emergency lines that will be relocated from the North Chicago PSAP. All split exchanges will continue to operate in the same manner as they do today. Address errors will continue to be corrected and updated in the same way they are done today and through Zetron. The dispatch centers worked with AT&T to complete the Line Busy study.

Plan Narrative:

The date for the system will be updated and maintained daily and will be the responsibility of the communications supervisor.

To ensure the integrity of the 9-1-1 system the network is separated by a fire wall and access control rules. The security is treated in a manner consistent with other Criminal Justice Systems.

The CAD/Mobile utilize and application from EnRoute CAD/Mobile. The system also supports AVL and field based reporting and is interfaced with LEADS/NCIC. The EnRoute CAD/Mobile is currently hosted by the Lake County ETSB and can support multi-jurisdictional dispatching functionality. In addition, the existing 9-1-1 and CAD systems include the ability to transition to NG911 with ESI Net and other NG911 components. The RMS function is accomplished utilizing CAPERS software application, hosted on individual servers located at each agency.

The radio system in the center operates on the Harris M7300, including intergration with the Starcom21 radio network and is equipped with an AIS server for interface to IP capable logging equipment. The logging recorder is a NICE NRX logger and can record both analog and IP transmissions. The communications center also has a working alarm board utilizing Manitou alarm monitoring software provided by FSS and AES wireless alarm interfaces. The center has several video feeds which are integrated into a collection of screens easily viewed by employees on duty. The video controls provide access to the cameras at Mundelein, Winthrop Harbor and the Lake County Department of Transportation-Passages traffic system. The building is fully supported by back-up generator power and critical systems are protected by UPS. The existing facility has the capacity to add additional equipment to support additional agencies.

The consolidated center will be staffed twenty four (24) hours per day, seven (7) days a week, without exception. The five (5) operator positions will have ANI/ALI capability, along with TTY service in the form of text messaging through Zetron Max 9-1-1 system. The procedure is seamless to the calling party regardless of the communication method used. The Mundelein center meets all standards required of a 9-1-1- PSAP.

Telecommunicators will enter the call information into the CAD system. The CAD will validate the call/incident location and display recommended response unites, prior call history, and other appropriate information. The unit assignment will then be transmitted to the responding agencies via radio and/or mobile data computer. The Telecommunicators will continue to transfer any misdirected E91-1- call to adjacent agencies using the pre-programmed transfer keys. The system forwards ANI/ALI information to the receiving agency. Mundelein staff will gather critical information from the caller, to include callback information, prior to initiating the call transfer to ensure the appropriate response is completed. Radio communication will continue to be available to the adjacent agencies.

All Telecommunicators are trained following the Association of Public Safety Communications Official International, Inc (APCO) guidelines to meet or exceed the standards as defined with the Illinois Administrative Code section 83 part 725. Each Telecommunicator is trained and certified by ICJIS in the operation of LEADS/NCIC. Telecommunicators are certified in Priority Dispatch EMD protocol and procedures. The operations manual for each agency will be consolidated to a single uniform policy.

The Mundelein communications center will continue to operate as the backup and overflow PSAP for the Vernon Hills Communication Center in the event of a system fail that renders the center unable to function as an E9-1-1 center.

FIVE YEAR STRATEGIC PLAN FOR MODIFIED PLAN

(Provide a detailed summary of the proposed system's operation, including but not limited to, a five-year strategic plan for implementation of the modified 9-1-1 plan with financial projections)

Narrative:

The proposed consolidation includes closing the North Chicago PSAP. Costs for consolidation have been estimated and factored into a five year capital and operational financial plan. The short-term costs exhaust and/or exceed the available individual ETSB fund balances. The long-term projections show a balance between the combined operating and capital costs versus surcharge revenues for the resulting JETSB.

One-time costs related to consolidation are expected to be completed during RY 19-20. The estimated annual expenditures starting in FY 19-20, average \$1,932,000.00 for a five year period. The JETSB revenues are estimated at \$1,287,354.00. Including inflation and making allowances for unanticipated expenditures, revenues and expenditures should balance in the long-run.

During the 2019 calendar year, the one-time consolidation costs are estimated to greatly impact the JETSB fund balance. This will be addressed with a combination of general fund expenditures and potential consolidation grant funding. In the absence of outside funding, the expenditures contemplated in the five year financial plan will have to be curtailed, or delayed, because of consolidation. Any curtailing of funds would be to the detriment of the consolidation operation.

Operationally, the JETSB PSAP will provide dispatch services for multiple agencies and will continue to pursue consolidation partners which provide long-term advantages. Potential partners will be evaluated for long-term fiscal viability along with functional/operations compatibility.

The North Chicago Fire and Police departments will move to the Mundelein CAD and RMS systems, resulting in improved interoperability and reduced operation costs. Passive video monitoring for Mundelein, North Chicago and Winthrop Harbor will be provided. Additional cost sharing opportunities are being explored for areas such as mass notification systems and LEADS connectivity.

Regarding staffing and personnel, the proposed center will have minimum staffing requirements of three fully trained Telecommunicators for all shifts. Additional personnel can be staffed for planned events which are likely to tax the center's operational capacity. The consolidation increases North Chicago's capacity during emergent or large scaled events, while reducing overall head count from the non-combined centers.

The proposed system will include five (5) fully operational dispatch positions (9-1-1 Answering system, Radio consoles, CAD workstations, six (6) 9-1-1 trunk lines (4-wireline, 2-wireless), one (1) dispatch supervisor, fourteen (14) full-time Telecommunicators, and two (2) part-time Telecommunicators. The Zetron 9-1-1 answering system will be replaced within the next five years. The new system is expected to cost \$500,000.00. Long-term plans include the evaluation of increased staffing minimums during peak periods and increased specialization in training, hiring, public education and APCO/NENA participation. The Mundelein Police Department also affords a large classroom facility that can be used for regional training. Proper forecasting will allow our dispatch center to expand with the potential for additional consolidation partners as open lines of communication with other communities are ongoing.

- E. Any Party or Subsequent Party that terminates its status and withdraws from the Board, shall, after the effective date of the withdrawal, receive a final distribution from the Fund equal to the amount that was deposited in the Fund by the ISP after receipt of the "written notice to the Custodian stating its effective withdrawal" minus any reimbursements to that party or that mutually benefits all parties. Such distribution shall be made in accordance with Section 7 of this Agreement and any other Board rules and procedures with respect to Fund expenditures.
- F. 1. Mundelein does hereby indemnify and hold North Chicago harmless from and against any and all claims which may arise out of the provision of Dispatch Services by the Communication Center under this Agreement, except to the extent caused by the negligence of North Chicago, as the case may be.
2. 3. Nothing expressed in this Agreement is intended to result in the waiver of any defenses or immunities provided by statute or common law. The reciprocal indemnity described herein is solely for the benefit of the parties hereto and there are no third party beneficiaries intended or created by the parties' allocation of risk.

- C. Proof of Coverage by Mundelein.** Mundelein agrees to furnish to North Chicago a certificate of coverage detailing the self-insurance or commercial insurance as provided by its insurer. The certificate shall be delivered to North Chicago within thirty (30) days after the effective date of this Agreement. All liability coverage required hereunder shall be endorsed to name North Chicago as an additional insured.

- D. Termination of Coverage.** All policies carried by Mundelein shall contain a provision which requires notice of intent to cancel or modify coverage not less than thirty (30) days prior to the effective date thereof. If Mundelein's coverage as provided by its insurer is terminated for any reason:

1. Mundelein shall promptly notify North Chicago of receipt of any such notice; and
2. Mundelein agrees to use its best efforts to provide comparable coverage either through membership in a joint risk management association or through commercial insurance carriers.

- E. Coverage by North Chicago.** North Chicago agrees to provide commercial general liability coverage for their operations as provided herein, and workers

Section 5. Promotion of Interaction and Communication.

The parties agree that they desire to establish a variety of means to enhance and promote communication and cooperation between the Communication Center and North Chicago. In addition to those matters otherwise addressed in this Agreement, the parties also wish to establish the following:

- A. Access to information about service delivery. North Chicago shall have access to records pertaining to the Dispatch Services provided to them for the purposes of inspection by any authorized representatives of North Chicago (during regular business hours, upon reasonable notice), to the same extent as such records are available for inspection by any authorized representatives of the Communication Center.
- B. Issue resolution procedure. The Communication Center shall establish operational rules and procedures for logging in and responding to inquiries and issues referred to it by individuals contacting the Communications Center concerning the Dispatch Services. The procedures shall include a requirement that the Communication Center informs North Chicago when specific inquiries and/or issues concerning Dispatch Services provided to North Chicago are brought to the attention of the Communication Center. The rules and procedures shall include responding to operational issues referred by North Chicago officials.
- C. Regular Meetings. The parties agree that representatives of each of the parties shall meet initially to consider the implementation of operational rules and procedures for the provision of the Dispatch Services pursuant to this Agreement. The parties further agree that their representatives shall meet on a regular basis (at least quarterly) to discuss this Agreement and the Dispatch Services provided pursuant to this Agreement, including, without limitation issues relating to the operation of the Communication Center in providing Dispatch Services, and the complaint procedures.

Section 6. Records.

The Communication Center shall establish and keep a computerized record system for all data relative to the Dispatch Services. The parties shall provide and exchange records in accordance with the provisions and limitations of the Health Insurance Portability Accountability Act and the Criminal Justice Information Services Security Policy, the provisions of which shall supersede any conflicting requirement of this Section.

Mundelein will also promptly provide all records that North Chicago may require to respond to a properly submitted request under the Freedom of Information Act (5 ILCS 140/1 et seq.) or litigation related discovery.

Section 7. Dispute Resolution.

- A. **Negotiations.** The parties desire to avoid and settle without litigation any future disputes that may arise between them relative to this Agreement. Accordingly, the parties agree to engage in good faith negotiations to resolve any such dispute. If any party has a dispute about a violation, interpretation, or application of a provision of this Agreement, or a dispute regarding a party's failure to comply with this Agreement, then that party may serve on the other party written notice, delivered as provided in Section 10 of this Agreement, setting forth in detail the dispute, the provisions of this Agreement to which the dispute is related, and all facts and circumstances pertinent to the dispute. The parties then, within seven (7) days, shall schedule a date certain for representatives of the parties to meet in a conference to resolve the dispute. Such conference shall be conducted within thirty (30) days after notice of the dispute has been delivered as provided herein. If a resolution is not reached within such 30-day period (or such longer period to which the parties may mutually agree), then either party may pursue remedies available under this Agreement, including termination.
- B. **Continuation of Services and Payments.** During all negotiation proceedings and any subsequent proceedings provided for in this Section 7, Mundelein and North Chicago shall continue to fulfill the terms of this Agreement to the fullest extent possible. Mundelein shall continue to provide Dispatch Services to North Chicago as provided by this Agreement. North Chicago shall continue to make all quarterly payments to Mundelein for the Dispatch Services as provided by this Agreement. Except as provided herein, North Chicago shall have no right to withhold from Mundelein payments due or which become due under this Agreement, nor any right to recover from Mundelein amounts previously paid under this Agreement (unless paid in error or contrary to the provisions of this Agreement or law), nor any right of reduction or set-off against the amounts due or which become due under this Agreement; it being the intent hereof that the parties shall be absolutely and unconditionally obligated to make all payments and perform all obligation under this Agreement, such obligations to survive termination of this Agreement.
- C. **Remedies.** Provided that the parties have met their obligations under Section 7.A, the parties shall be entitled to pursue such remedies as may be available in law and equity, including an action to secure the performance of the covenants, agreements, conditions, and obligations contained herein. The parties agree that any such action must be brought in the Circuit Court of Lake County, Illinois. The

requirements of Section 7.A shall be waived in the event of either significant risk of irreparable harm or significant jeopardy to public health and safety. However, during all periods in which the parties are dealing with a dispute or a remedy, Mundelein shall continue to provide dispatch services only so long as North Chicago continues to make its quarterly payments.

Section 8. Term; Termination.

- A. **Term; Renewal.** The term of this Agreement shall be for five (5) years following the Commencement Date. The parties may agree to renew or extend such term upon such terms and conditions as are mutually agreeable. If the parties do not agree upon a new Dispatch Fee, and if neither party has given timely notice to terminate, then the contract will renew under the same terms and the new Dispatch Fee shall increase at the rate of 3% from the Dispatch Fee immediately preceding the contract year in question.
- B. **Termination.** This Agreement may be terminated pursuant to one of the following:
1. By written amendment to this Agreement duly authorized by the Corporate Authorities of each of the parties; or
 2. In the event of a material default under this Agreement, and provided that the parties have failed to resolve matters pursuant to the provisions of Section 7, the non-defaulting party may notify a defaulting party in writing setting forth the nature of the material default and the requested remedy for such material default. The defaulting party shall thereafter have ten (10) days to correct the material default prior to the non-defaulting party's terminating this Agreement; provided that said ten (10) day period shall be extended, for a reasonable time not exceeding ninety (90) days, if said material default cannot reasonably be cured within said ten (10) day period. If a defaulting party fails to cure the material default within the cure period provided in this Section, the non-defaulting party shall have the right to terminate this Agreement by written notice of termination to the defaulting party, which termination will be effective immediately (or by such other date, not beyond the term of this Agreement, as the non-defaulting party may determine). A party that terminates this Agreement pursuant to this Section shall retain its rights to pursue any and all other remedies that may be available, either in law or in equity under this Agreement.
 3. Any party may cancel this agreement without cause with advance written notice of at least three hundred and sixty five (365) days and without regard to whether or not the Dispute Resolution procedure set forth in

Section 7 or the material default procedure set forth in Section 8, paragraph B, subparagraph 2 has been initiated or followed by any party. Upon termination of this Agreement by North Chicago pursuant to this paragraph, North Chicago shall be responsible to reimburse Mundelein for unemployment compensation costs incurred by Mundelein that are directly attributable to North Chicago's request for early termination without cause.

4. In the event Mundelein merges or consolidates its Communication Center with any other dispatch center during the term of this Agreement resulting in Mundelein ceasing to provide dispatch services, such transfer shall be subject to the terms and conditions of this Agreement. Mundelein shall give North Chicago not less than six (6) months advance written notice of any consolidation or merger under which Mundelein ceases to provide dispatch services. In the event of a merger or consolidation which results in Mundelein ceasing to provide dispatch services, North Chicago shall have the option of terminating this Agreement without any penalty on or before the effective date of the merger or consolidation.

Section 9. Miscellaneous.

- A. **Unfunded mandates.** The parties acknowledge that significant changes have occurred in legal requirements of Dispatch Services over the past decade and are likely to occur in the future. In the event that unfunded mandates arise which impose new obligations on the Communication Center over and above current obligations, then the parties agree to negotiate a sharing of all new or additional costs incurred to comply with said mandates, and the parties agree to be responsible for their fair share of said costs based on the Parties' proportionate share of ETSB 9-1-1 revenues.
- B. **Effective date.** This Agreement shall be effective as of the date it is signed by both parties; provided, however, that the Dispatch Services to be provided by the Communication Center to North Chicago shall not begin until the Commencement Date.

AGREEMENT

Alternate Public Safety Answering Point

For 9-1-1 Emergency Communications

This agreement is made between the Public Safety Answering Point, hereinafter referred to as "PSAP" and the Vernon Hills Police Department for the purpose of effective handling and routing of E-911 and wireless 911 emergency calls for police/fire assistance.

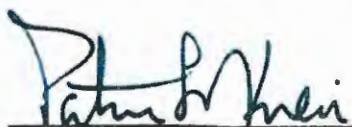

Call Handling

When the volume of emergency calls at the Mundelein Police Department Public Safety Answering Point is such that an overflow of emergency calls is produced, the overflow of emergency calls will be transferred to the Vernon Hills Police Department. The Vernon Hills Police Department, located at 754 Lakeview Parkway, Vernon Hills, IL 60061, will serve as the secondary Public Safety Answering Point (PSAP), and will be utilized in the event that the primary Public Safety Answering Point becomes inoperable, providing the Vernon Hills Police Department is physically capable of receiving such calls. It would then become the receiving center for all emergency public safety services provided to the Village of Mundelein. When the Vernon Hills Police Department receives the emergency call for service originating from the Village of Mundelein, they will dispatch the call via local radio channel 470.8625 to the Mundelein Police Department and an emergency unit will respond to the call for assistance. The Vernon Hills Police Department will collect the appropriate information about the caller and transfer this information back to the Mundelein Public Safety Answering Point for the proper recording of this information.

TEST PLAN DESCRIPTION

1) Description of test plan (back-up, overflow, failure, database).

The E9-1-1 network design for Mundelein links the Mundelein PSAP at 221 N Lake Street, Mundelein, IL 60060 to the AT&T E9-1-1 selective router. The backup PSAP will be the Vernon Hills Communication Center at 754 Lakeview Parkway, Vernon Hills, IL 60061. The 9-1-1 trunks will be programmed to the AT&T selective router with an overflow route to Vernon Hills Communication Center as the second choice. Should all the trunks in the group be busy or be out of service, AT&T selective router will determine if 9-1-1 calls can be re-routed to the Vernon Hills Communication Center. AT&T will conduct call-through testing prior to, and during, the cut over to the consolidated PSAP. The testing will involve personnel making test calls to the PSAPs routing telephone number and will be done to ensure every member of the 9-1-1 trunk group is tested. The premise equipment will be tested to ensure the system is capable of transferring 9-1-1 calls with at least 99% accuracy.

2) List wireline exchanges to be tested.

3) List of wireless and VoIP Carriers to be tested.
