FIVE YEAR STRATEGIC PLAN FOR CONSOLIDATION PLAN

(Provide a detailed summary of the proposed system's operation, including but not limited to, a five-year strategic plan for implementation of the consolidation plan with financial projections)

Narrative:

In anticipating for future consolidations, the Cook County ETSB and the Sheriff's Office began expanding 9-1-1 operations in July of 2015. The main center in Des Plaines currently has 20 full dispatch positions, 4 call taking positions and 8 positions that are built and awaiting computer equipment.

The Maywood backup center, which was renovated in 2017, has 10 dispatch positions. There are an additional 9 positions that are built and awaiting computer equipment.

The design of the Cook County next generation capable phone system from Zetron is unique in that it provides redundancy with a full independent system at the primary and back up sites. The system allows operators to select which controller they are using which essentially allows the back up center to work simultaneously with the primary site. This increases the active call taking positions to 34 with room for 17 additional consoles that can be added as operations grow.

In 2017, through a partnership with the Illinois Department of Transportation and Cook County expanded the Motorola P1 CAD System to add additional million calls for service per year. This expansion included a refresh of all server software and visualizes the current environment. Infrastructure updates have brought the center up to date on all equipment. This has prepared the Cook County 9-1-1 Center to accept new consolidations without passing the cost of technology or infrastructure onto contract dispatch agencies.

SYSTEM ORDINANCE, AS AMENDED**

WHEREAS, the State of Illinois has enacted into law the Emergency Telephone System Act, Ill. Rev. Stat. ch. 134, para. 30.01 et. seq. (the Act) and

WHEREAS, the Act enables a County to impose a surcharge on billed subscribers of network connections provided by telecommunications carriers at a rate per network connection in order to implement and maintain a "9-1-1" Emergency Telephone System; and

WHEREAS, the Act further provides that before the surcharge may be imposed it must be authorized by a majority of voters in a referendum by the County; and

WHEREAS, the County Board of Cook, its' President, and commissioners deem it to be in the best interest of the County to implement and maintain an enhanced "9-1-1" Emergency Telephone System and to impose a surcharge on billed subscribers of network connections provided by the telecommunications carriers to pay for the cost associated therewith;

NOW, THEREFORE, BE IT ORDAINED by the President and Board of Commissioners of the County of Cook, Cook County Illinois as follows:

NEW CHAPTER - Surcharge for Emergency 9-1-1 Telephone System

Section One

A surcharge is hereby imposed, subject to the provisions of Section Two, upon all telephone subscribers passed through telecommunication carriers engaged in the business of transmitting messages by means of electricity originating within the corporate limits of Cook County. However, the surcharge may not be imposed, unless requested by a municipality, in any incorporated area which has previously approved a surcharge, or in any incorporated area where the corporate authorities have previously entered into a binding contract or letter of intent with a telecommunications carrier to provide 9-1-1 service through municipal funds.

If simultaneous to approval of the county referendum contained in this ordinance, a municipality approves a substantially similar referendum authorizing a surcharge for 9-1-1 services to be provided by the municipality, this ordinance does not apply to that municipality.

Section Two

A referendum shall be placed by the Cook County Clerk on the April 20, 1993, ballot for all legal voters residing in the Unincorporated areas of Cook County and Municipalities of Berkeley, Golf, Ford Heights, Northlake, Phoenix, Robbins, and Stone Park, to vote upon the following question:

: Shall the County of Cook impose a surcharge	:	
: of up to one and 25/100 dollars (\$1.25) per month	:	YES
: per network connection, which surcharge will be	:	
: added to the monthly bill you receive for telephone	:	
<hr/>		
: or telecommunications charges for the purpose of	:	
: installing a 9-1-1 Emergency Telephone System	:	NO

Section Three

If a majority of the votes cast upon the question are in favor thereof, a surcharge is hereby imposed at a rate of \$1.25 per month per in service network connection, as hereinafter defined.

Section Four

As used in this Ordinance, the following terms shall have the following meanings: a) "network connection" and "transmitting messages" shall have the same meanings as in the Emergency Telephone System Act, Ill. Rev. Stat. ch. 134, para. 30.01 et seq. (1991); b) "telecommunications carrier" shall have the same meaning as Ill. Rev. Stat. ch. 111 2/3, para. 13-202; c) "board" means the Emergency Telephone System Board of Cook County created pursuant to Section 12 of this Ordinance.

Section Five

The Cook County Clerk shall provide any telecommunication carrier subject to the surcharge with a certified list of those network connections assigned to the municipalities or county to be exempt from imposition of the surcharge. The certified list may be revised by the County of Cook on 60 days prior written notice provided to the telecommunication carriers.

Section Six

The surcharge shall be imposed on the first day of the month following the expiration of 90 days from the date of the Cook County Clerk certifies to the individual telecommunication carriers subject to the surcharge that the referendum referred to in Section Two has passed.

Section Seven

Each telecommunications carrier is hereby authorized and instructed to recover accounting and collection charge, as provided in Section 8, by deducting 3% from the gross amount of surcharge collected otherwise due and owing the County of Cook prior to remittance under Section Eight of this ordinance.

Section Eight

The amount of surcharge collected by the telecommunications carrier shall be paid to the Emergency Telephone System Board of Cook County not later than 30 days after the surcharge is collected, net of any network or other 9-1-1 or sophisticated 9-1-1 system charges then due the particular telecommunication carrier, as shown on an itemized bill and as previously agreed upon by the Board and the carrier and the 3% accounting and collection charge described in Section Seven.

Section Nine

Simultaneously with the remittance described in Section Eight above each telecommunication carrier shall make a return to the Cook County Treasurer for the period to which the remittance applies stating as follows:

1. The name of the telecommunication carrier.
2. The telecommunication carrier's principal place of business.
3. The number of network connections to which the surcharge applies.
4. The amount of surcharge due.

TEST PLAN DESCRIPTION

1) Description of test plan (back-up, overflow, failure, database).

The Cook County ETSB has enough capacity to add the Village of Harvey to its existing system without the need for any additional lines. The main Cook County Dispatch site is located at 9511 W Harrison in Des Plaines. In the event of a phone line failure, the 9-1-1 lines can either manually be switched over in Des Plaines by staff or switched by the 9-1-1 Resolution Center to Northwest Central Dispatch System and/or Southwest Central Dispatch by the selective router. The CC ETSB has a backup center located in the Sheriff's Police Headquarters at 1401 S Maybrook Dr in Maywood. This location is tested on a monthly basis by 9-1-1 center staff and is coordinated with the 9-1-1 resolution center. Northwest Central Dispatch and Southwest Central Dispatch can handle overflow calls in the event a trunk is busy at the CC ETSB. The current phone system, which is Zetron Call Max, is connected from Des Plaines to Maywood through an Opt-E-Man Circuit and has a backup of a point to point microwave connection. In the event that both paths were disturbed the Zetron controllers can function independently in both locations. The connection between Maywood and Des Plaines is not needed in order to have redundancy.

2) List wireline exchanges to be tested.

3) List of wireless and VoIP Carriers to be tested.
