**ORDER OF THE STATEWIDE 9-1-1 ADMINISTRATOR**

**I. INTRODUCTION**

On October 31, 2017, Montgomery County ETSB ("Applicant") filed a Plan Modification Application with the Department of the Illinois State Police ("Department") pursuant to the Emergency Telephone System Act ("ETSA") 50 ILCS 750/ and 83 Ill. Admin. Code 1325 "Standards of Service Applicable to 9-1-1 Emergency Systems" ("Part 1325"). Applicant seeks authorization to change its 9-1-1 system provider from Illinois Consolidated Telephone Company ("ICTC") to INdigital to implement an E9-1-1 System serving Montgomery County.

Montgomery County ETSB supported the Plan Modification with documentary materials, including a narrative statement explaining the purpose for modifying the Petitioner's existing 9-1-1 plan and a network diagram.

The Plan Modification was filed pursuant to the Emergency Telephone System Act ("ETSA"), 50 ILCS 750, *et seq.* The purpose of the Act is "to establish the number "9-1-1" as the primary emergency telephone number for use in this State and to encourage units of local government and a combination of such units to develop and improve emergency communication procedures and facilities in such a manner as to be able to quickly respond to any person calling the telephone number "9-1-1" seeking police, fire, medical, rescue and other emergency services." 50 ILCS 750/1

The Office of the 9-1-1 Administrator is authorized to coordinate the implementation of systems established under the ETSA. In order to secure compliance with the technical and operational standards for the development of local agency systems, the ETSA empowers the Statewide 9-1-1 Administrator to approve or disapprove plans submitted by the public agencies. Standards of service applicable to 9-1-1 emergency systems, as adopted by the Department, are set forth in 83 Ill. Adm. Code Part 1325.

**II. DESCRIPTION OF APPLICANT**

Applicant operates the 9-1-1 emergency services program in Montgomery County, Illinois. The Illinois Commerce Commission ("Commission") approved Applicant's 9-1-1 system in Docket No. 96-0167. The system became operational in October 1996 and operates on a county wide basis with one Public Safety Answering Point, one located at the Montgomery County Sheriff's Office, 140 N Main Street, Hillsboro, Illinois. The 9-1-1

system dispatches police, fire, and ambulance services.

### **III. PURPOSES AND DESCRIPTION OF PROPOSED MODIFICATION**

Applicant is requesting to change their 9-1-1 System Service Provider from Illinois Consolidated Telephone Company (ICTC) to INdigital because ICTC is leaving the Illinois 9-1-1 market.

INdigital will coordinate with all wireline, VoIP and wireless carriers with the establishment of a new SS7 or SIP trunks to connect to two INdigital Emergency Services Routing Proxies (ESRPs) located in Charleston and Mattoon, IL and will coordinate the migration of 9-1-1 call traffic that is being delivered to the ICTC selective router in Mattoon to the two INdigital ESRPs. The 9-1-1 Network will be IP based from the INdigital ESRPs to both PSAP's.

On November 6, 2017, Stacy Ross, 911 Technical Analyst, Statewide 9-1-1 Bureau filed a Technical Review to the Application. The Technical Review met the requirements of 83 Illinois Administrative Code 1325.

Staff recommends the following conditions:

- a. participation in bi-weekly implementation conference calls with all parties (Applicant, ICTC, INdigital, involved access providers, involved 9-1-1 system providers, and Department Staff);
- b. submission of the Methods of Procedure (MOP – the conversion schedule for cutting over to the new system by carrier and exchange) to be provided to the Statewide 9-1-1 Administrator and Commission's Telecommunication Staff; and
- c. any other reporting as deemed necessary.

### **IV. FINDINGS AND ORDERING PARAGRAPHS**

The Administrator, having considered the Applicants Plan Modification Application and Department's Staff Review, is of the opinion and finds that:

- (1) Applicant operates the 9-1-1 emergency services program for Montgomery County, Illinois under the ETSA;
- (2) INdigital has authority from the Commission to operate as a 9-1-1 system service provider;
- (3) Applicant and INdigital seek to implement an E9-1-1 system as defined in the ETSA;

- (4) The Administrator has jurisdiction over Applicant and the subject matter herein;
- (5) The record reflects that Applicant's proposed 9-1-1 System modifications comply with Part 1325 and applicable laws; and
- (6) Applicant's proposed 9-1-1 System modification should be approved subject to the following conditions:
  - a. participation in bi-weekly implementation conference calls with all parties (Applicant, ICTC, INdigital, involved access providers, involved 9-1-1 system providers, and Department Staff);
  - b. submission of the Methods of Procedure (MOP), the conversion schedule for cutting over to the new system by carrier and exchange, to be provided to the Statewide 9-1-1 Administrator and Commission's Telecommunication Staff; and
  - c. any other reporting as deemed necessary.

**IT IS THEREFORE ORDERED** by the Statewide 9-1-1 Administrator that pursuant to the Findings of Fact the Montgomery County ETSB's request to change their 9-1-1 System Service Provider pursuant to paragraph 1325.200(g)(2) of 83 Illinois Administrative Code is hereby approved.

**IT IS FURTHER ORDERED** that the authorization herein granted is subject to the conditions set forth in Findings No. 6 above.
