Case No. 19-M-256

Application for 9-1-1 Modification Plan

ORDER OF THE STATEWIDE 9-1-1 ADMINISTRATOR

I. Introduction

On December 19, 2019, the DeKalb County ETSB ("Applicant") filed a Modification Plan Application with the Department of the Illinois State Police ("Department") pursuant to the Emergency Telephone System Act ("ETSA") 50 ILCS 750/ and 83 Ill. Admin. Code 1325 "Standards of Service Applicable to 9-1-1 Emergency Systems" ("Part 1325"). Applicant seeks authorization to change its 9-1-1 system provider from Frontier to NG-911, Inc. and to implement a Next Generation 9-1-1 i3 capable solution.

The DeKalb County ETSB supported the Plan with documentary materials, including a narrative statement explaining the purpose for modifying the Petitioner's existing 9-1-1 plan and a network diagram.

The Office of the 9-1-1 Administrator is authorized to coordinate the modification of systems established under the ETSA. In order to secure compliance with the technical and operational standards for the development of local agency systems, the ETSA empowers the Statewide 9-1-1 Administrator to approve or disapprove plans submitted by the public agencies. Standards of service applicable to 9-1-1 emergency systems, as adopted by the Department, are set forth in 83 Ill. Adm. Code Part 1325.

II. Description of Applicant

Applicant operates the 9-1-1 emergency services program in DeKalb County, Illinois. The Illinois Commerce Commission ("Commission") approved Applicant's 9-1-1 system in Docket No. 91-0607. The system became operational in April 1993 and operates on a countywide basis with two primary Public Safety Answering Points, located at the DeKalb County Sheriff's Department, 150 North Main Street, DeKalb, Illinois and the DeKalb Police Department, 700 West Lincoln Highway, DeKalb, Illinois. The 9-1-1 system dispatches police, fire, and ambulance services.

III. Purposed and Description of Proposed Modification

Applicant is requesting to change their 9-1-1 System Service Provider from

Frontier to NG-911, Inc. NG-911, Inc. will coordinate with all wireline, VoIP and wireless carriers with the establishment of new SS7 or SIP trunks. The system will be provisioned as an IP, Next Generation i3 capable network and will deliver calls using IP technology to the PSAP. The system will have redundant Legacy Network Gateways (LNG's) and Emergency Service Routing Proxy's (ESRP's), otherwise referred to as selective routers that will handle all call routing for the PSAP. One set of call routing elements is located at the DeKalb County Sheriff Department Jail Annex located in Sycamore, Illinois and the second is located at the Belvidere Fire Department located in Belvidere, Illinois. NG-911, Inc. will coordinate the migration of 9-1-1 call traffic for each wireline, wireless and VoIP carrier that is currently being delivered to the Frontier selective router(s) to the two NG-911, Inc. ESRPs. The 9-1-1 Network will be IP based from NG-911, Inc.'s ESRPs to the PSAP.

On January 8, 2020, Marci Elliott, 911 Manager, Statewide 9-1-1 Bureau filed a Technical Review to the Application. The Technical Review met the requirements of 83 Illinois Administrative Code Part 1325.
