DEPARTMENT OF STATE POLICE

Johnson County Joint ETSB :
 : Case No. 16-C-176
Application for 9-1-1 Consolidation Plan :

ORDER OF THE STATEWIDE 9-1-1 ADMINISTRATOR

I. Introduction

On December 17, 2018, the Johnson County Joint ETSB ("Applicant") filed a Consolidation Plan Application with the Department of the Illinois State Police ("Department") pursuant to the Emergency Telephone System Act ("ETSA") 50 ILCS 750/, 83 Ill. Admin. Code 1324 "Consolidation of 9-1-1 Emergency Systems" ("Part 1324") and 1325 "Standards of Service Applicable to 9-1-1 Emergency Systems" ("Part 1325"). Applicant seeks authorization to consolidate with Hardin and Pope County's and to change its 9-1-1 system provider from NG9-1-1, Inc. to INdigital to implement an NG9-1-1 System serving Johnson County.

The Johnson County Joint ETSB supported the Plan with documentary materials, including a narrative statement explaining the purpose for modifying the Petitioner's existing 9-1-1 plan and a network diagram.

The Consolidation Plan was filed pursuant to the Emergency Telephone System Act ("ETSA"), 50 ILCS 750, *et seq.* Under Section 750/15.4a (7) The corporate authorities of each county that has no 9-1-1 service as of January 1, 2016 shall provide enhanced 9-1-1 wireline and wireless enhanced 9-1-1 service for that county by either (i) entering into an intergovernmental agreement with an existing Emergency Telephone System Board to create a new Joint Emergency Telephone System Board, or (ii) entering into an intergovernmental agreement with the corporate authorities that have created an existing Joint Emergency Telephone System Board. As a result, Hardin and Pope County's are required to consolidate and have chosen to consolidate with Johnson County.

The Office of the 9-1-1 Administrator is authorized to coordinate the implementation of systems established under the ETSA. In order to secure compliance with the technical and operational standards for the development of local agency systems, the ETSA empowers the Statewide 9-1-1 Administrator to approve or disapprove plans submitted by the public agencies. Standards of service applicable to 9-1-1 emergency systems, as adopted by the Department, are set forth in 83 Ill. Adm. Code Part 1324 and 1325.

II. Description of Applicant

Applicant operates the 9-1-1 emergency services program in Johnson County, Illinois. The Illinois Commerce Commission ("Commission") approved

Applicant's 9-1-1 system in Docket No. 95-0188. The system became operational in July 1995 and operates on a countywide basis with one Public Safety Answering Point, located at the Johnson County Sheriff's Office, 113½ North 5th Street, Vienna, Illinois. The 9-1-1 system dispatches police, fire, and ambulance services.

III. Purposed and Description of Proposed Modification

Applicant is requesting to change their 9-1-1 System Service Provider from NG9-1-1, Inc. to INdigital Telecom ("INdigital").

INdigital will coordinate with all wireline, VoIP and wireless carriers with the establishment of a new SS7 or SIP trunks. The system will be provisioned as an IP, Next Generation i3 capable network and will deliver calls using IP technology to the PSAP. The system will have redundant Legacy Network Gateways (LNG's) and Emergency Service Routing Proxy's (ESRP's), otherwise referred to as selective routers that will handle all call routing for the PSAP. One set of call routing elements is located in the Consolidated Communications Central Office located in Mattoon, Illinois and the other is located in the Shawnee Communications Central Office locate in Rosiclare, Illinois and will coordinate the migration of 9-1-1 call traffic that is being delivered to the NG9-1-1, Inc. selective router in Mattoon to the two INdigital ESRPs. The 9-1-1 Network will be IP based from the INdigital ESRPs to the PSAP.
