Software / Services Description

1. **GIS and Database Services.** Location Database services for the PSAP. Repository for ALI. Legacy wireline records in the Perry County, IL service area will be processed by INdigital using industry standard record exchange and correction methods. i2 format ALI service (wireless, VoIP - using pANI) will be provided by INdigital, once complete all records will be geocoded using industry defined methods for location-based call routing. INdigital will utilize an advanced IP Selective Router (IPSR) and associated i3 functional elements associated with geodetic data to deliver calls to the CSI Next Gen enabled 9-1-1 public safety answering points (PSAPs). Once INdigital has the appropriate data, INdigital will develop the call delivery solution based upon the geography of an incoming call.
2. **Routing Services.** Routing services and methodologies include; traditional Selective Routing tables, Dialed Number Identification Service, Geographic Information System, as well as various hybrid configurations of Automatic Location Identification and Selective Routing tables. INdigital also supports location by value, location by reference, traditional ALI lookup, and ALI steering by use of our NGALI Service.
3. **Network Services.** INdigital will provide access for all CSI members with access to the www.il911.net PSAP Toolkit. This Toolkit contains comprehensive KPI such as call detail reports, trouble ticket management, 24/7/365 Network Operations center with chat, ticket entry/tracking, training, and documentation assets related to each specific member's call processing and reporting needs.
4. **MEVO Services.** MEVO Services are delivered from a completely independent call processing system that operates in parallel to the INdigital Next Gen Core Service (NGCS) routing platform, which can bypass the primary 9-1-1 CPE. The MEVO System facilitates INdigital's ability to re-route 9-1-1 calls from a primary 9-1-1/NG9-1-1 CPE platform to a MEVO Station, which is an advanced IP phone with the ability to process 9-1-1 and Administrative calls. As a core component of this solution, INdigital will install a commodity Internet connection to each CSI PSAP for backup call delivery to MEVO Stations. (1) MEVO Station is included as part of this original contract between CSI and INdigital, any county that is interested in contracting additional MEVO Stations can do so by contacting INdigital to negotiate service, installation and configuration of each additional phone.
5. **Call Delivery Network.** "INdigital has agreed to take over as the 9-1-1 System Service Provider (SSP) to each member of the Counties of Southern Illinois (CSI). INdigital will install (1) carrier grade IP circuit to each CSI Solacom host controller site (Jackson and Saline Counties) to deliver 9-1-1 services to the members of CSI which are connected to a regional ESInet operated by a separate CPE service provider. INdigital will deliver 9-1-1 services to gateway devices with final call delivery to Solacom IWS, being the responsibility of the current 9-1-1 CPE system provider. Backup connections being delivered individually to each PSAP as outlined above in item 4 – MEVO Services. In the event that CSI is dissolved, or if (contracting county) is no longer a party to CSI, 9-1-1 calls would be rerouted so as not to go through the CSI Solacom host controller."
6. **Transfers.** In the event a CSI PSAP requires the use of selective transfer functions, the Host 911 System sends the call with the proper agency identified in the PIDF-LO + Service URN to the INdigital ESInet based ESRP. The ESRP then queries the ECRF with LoST and receives Service URI for delivery to next hop location such as another ESRP or Responder Agency.
7. **Backup and Overflow Call Routing.** Backup and Overflow call routing to be determined during final (post contract) engineering meetings.

CONSUMER DISCLOSURE

From time to time, INdigital (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures
