INTRODUCTION

This Executive Summary of the *Crime in Illinois 2002*, Annual Uniform Crime Report, is intended to provide readers with a high-level overview of the nature of crime in Illinois. This summary highlights statewide statistics and topics of interest. Detailed statistics and analyses are contained in the complete *Crime in Illinois 2002*, Annual Uniform Crime Report, which is available via the internet through the Illinois State Police website at <http://www.isp.state.il.us>.

During 2002, 956 agencies submitted data directly to the Illinois Uniform Crime Reporting Program (I-UCR). The remaining agencies reported their crime statistics through an intermediary agency (sheriff's office, police department, etc.). A complete listing of agencies that participated and their respective extent of participation is available in the complete publication.

Local law enforcement agencies are mandated by Chapter 20 of the Illinois Compiled Statutes, 2630/8, to report crime index offenses, crime index offense arrests, and drug arrests. The 2001 figures may not reflect the figures published in *Crime in Illinois 2001* due to submission of late and/or adjusted data.

METROPOLITAN STATISTICAL AREAS

A Metropolitan Statistical Area (MSA) is composed of an entire county or group of counties with at least one core city, with the whole area meeting criteria of certain metropolitan characteristics established by the United State's Bureau of the Census. An area qualifies for recognition as a MSA in one of two ways: (1) if it included a city of at least 50,000 population, or (2) if it includes an urbanized area of at least 50,000 population with a total metropolitan population of at least 100,000. In addition to the county containing the main city or urbanized area, a MSA may include additional counties having strong economic and social ties to the central county. Two of Illinois' MSAs overlap with Iowa and Missouri. Areas outside of Illinois that are included in a MSA are not represented in the statistics presented here.

The inhabitants of the large and small municipalities and rural areas that comprise the state's MSAs account for 84.6 percent of the state population. The total MSA crime index offenses account for 89.1 percent of the state's crime index offenses.

SUPPLEMENTAL DATA

In April 1996, the Illinois State Police began collecting additional crime information. This data includes statistics pertaining to offenses mandated by state statutes and offenses concerning children. Due to limitations of agencies' reporting systems, all agencies are not included in the totals presented in the following tables. In some cases, the percentages may not equal 100 due to rounding.

DOMESTIC CRIMES

Reporting domestic violence is mandated by Chapter 20 of the Illinois Compiled Statutes, 2630/5.1. Domestic-related crimes are defined as crimes committed by family or household members, including spouses, former spouses, parents, children, stepchildren and other persons related by blood or marriage, persons who share or formerly shared a common dwelling, and persons who have or allegedly have a child in common. In the case of a high-risk adult with disabilities, family or household member includes any person who has the responsibility for that individual as a result of a family relationship or who has assumed responsibility for all or a portion of the care voluntarily, or by express or implied contract, or court order.

Summary

There were 130,215 domestic violence offenses reported to the I-UCR Program this year, an average of 357 each day, or one every 4 minutes and 2 seconds. This is a 3.4 percent increase from the 125,897 domestic violence offenses reported last year. The domestic violence offense rate is 1,048.5 per 100,000 inhabitants.
