

HATE CRIME

Hate Crime Data

The reporting of select hate crime offenses is mandated by Chapter 50 of the Illinois Compiled Statutes, 709/5. A hate crime is committed when, by reason of the actual or perceived race, color, creed, religion, ancestry, gender, sexual orientation, physical or mental disability, or national origin of another individual or group of individuals, a person commits an offense against the individual or group of individuals. Additionally, the Hate Crime Statistics Act of 1990 mandates the reporting of hate crime offenses to the Federal Uniform Crime Reporting (UCR) Program, administered by the Federal Bureau of Investigation (FBI).

An important qualifier must be present when reporting a hate crime. The fact that the offender is biased against the victim’s race, religion, disability, sexual orientation, or ethnicity/national origin does not mean that a hate crime occurred. The offender’s criminal act must have been motivated by his bias. Before an offense can be reported as a hate crime, sufficient facts must be present to lead a reasonable person to conclude that the offender’s actions were motivated by his bias. Acts of vandalism (graffiti being the most common) are reported only when the owner of the property vandalized is a member of the bias group targeted. Graffiti may be reported as assault if a member of the bias group cannot avoid the graffiti and is fearful for his/her safety.

The Federal UCR Program’s offense definitions do not always align with Illinois Compiled Statutes (ILCS) offense definitions. Example: The ILCS offense of battery equates to the Federal UCR Program offense of assault. This creates the potential for discrepancies between hate crime statistics published in the annual Crime in Illinois versus Crime in the United States publications.

Several enhancements were implemented in 2014 to the hate crime reporting process. There was a significant increase in the number of locations that could be reported to identify where the incident took place, and the addition of gender-related bias motivations. Additional religious-related bias motivations were added in 2015.
