

**SECTION II -  
CRIME INDEX OFFENSE/  
CRIME RATE DATA**

## **Crime Index Offense/Crime Rate Data**

Caution should be exercised when reviewing and using this information. The many social factors related to crime and a community's residential population, used to calculate the crime rate, must be considered when making statistical comparisons. A community may have a small residential population but a large moving population because of a substantial number of manufacturers, motels, etc., within its jurisdiction. The large moving population attracts criminal behavior that occurs within the small jurisdiction and must be reported by the law enforcement agency. The crime rate calculation does not compensate for a moving population. The statistics can make it appear that crimes are committed by community residents when this is not necessarily true.

This section utilizes the most recent complete census population statistics available from the U.S. Bureau of Census. The 1997 and 1998 crime rates for this section were calculated using the 1996 estimated population statistics which were obtained from the U. S. Bureau of Census, released 1997. Population figures were also obtained through receipt of a special census received from the U.S. Bureau of Census or from the reporting agency.

It should be noted that each county total reflects crime data reported by police departments, sheriffs' offices, colleges and universities that are located within each county. Since the Secretary of State's Office has districts that have multi-county jurisdiction, the Secretary of State's Office totals are not reflected in the county total but are reflected in the state total.

The Crime Index Offense/Crime Rate Comparison State Total is an aggregate total of the sheriffs' offices, police departments, colleges, universities and the Secretary of State's Office.

The footnotes in Section II are defined as follows:

- Footnote 1 - "One or More Months Missing" indicates that an agency reports directly to I-UCR, but that one or more monthly UCR reports were delinquent for that reporting year.
- Footnote 2 - "No Index Crimes" indicates that an agency reported to I-UCR during the entire reporting year, but that the total number of index crimes for that year was zero.
- Footnote 3 - "Agency in Non-Compliance" indicates that the agency has reported UCR data in the past, but did not provide UCR reports at all during the reporting year.
- Footnote 4 - "Reported Through Other Agency" indicates that the agency reported their UCR data through another law enforcement agency during the reporting year.
- Footnote 5 - "Partial Year Reporting" indicates either a) that a law enforcement agency started direct reporting to I-UCR sometime during the reporting year; or b) a law enforcement agency ceased to exist or lost its officers sometime during the year, and UCR reporting was terminated.
