An unannounced inspection of property and evidence storage areas will be conducted as directed by the agency’s Director, or their designee, at least once a year.

NOTE: The unannounced inspection is not meant to be a time-consuming task. It can be as simple as the Director, or their designee, entering the property and evidence areas and inspecting for cleanliness, orderliness, and tracing a few pieces of property and evidence to ensure they are in the proper place as stated in the area’s records.

NOTE: If necessary, due to operational need or to facilitate work unit scheduling, a minimum amount of notice may be provided to the SEC in advance of the declared unannounced inspection of the SEV.

(Refer to ISP Directive OPS-200, "Evidence – Definitions and Responsibilities.")

III.A.5. Inspectors

- III.A.5.a. The appropriate EC will accompany all persons conducting authorized inspections or inventories.
- III.A.5.b. An ISP Command Officer (hard rank of Master Sergeant or above) will complete all required inspections of evidence vaults, except those conducted by the Office of Inspection and Audits and/or the SEC/Assistant SECs.

If the error must be documented, the appropriate work unit Commander or designee will be notified of the error so corrective action can be taken to prevent the error in the future.
- III.A.6.c. Due to changes in procedures over time, exhibits in cases opened prior to 2004 will only be inspected for exhibit integrity, packaging, and proper shelving location. In addition, the following errors are exempt from inspection reporting requirements and will not be documented on an inspection or inventory report:
