"Direct dispatch" means a 9-1-1 service wherein upon receipt of an emergency call a public safety telecommunicator transmits - without delay, transfer, relay, or referral – all relevant available information to the appropriate public safety personnel or emergency responders.
"Secondary Answering Point" or "SAP" means a location, other than a PSAP, that is able to receive the voice, data, and call back number of E9-1-1 or NG9-1-1 emergency calls transferred from a PSAP and completes the call taking process by dispatching police, medical, fire, or other emergency responders.
"Transfer" means a 9-1-1 service in which the public safety telecommunicator, who receives an emergency call, transmits, redirects, or conferences that call to the appropriate public safety agency or other provider of emergency services. Transfer shall not include a relay or referral of the information without transferring the caller.
The General Assembly further finds and declares that direct dispatch should be used if possible to shorten the time required for the public to request and receive emergency aid. The Administrator shall minimize the use of transfer, relay, and referral of an emergency call if possible and encourage Backup PSAPs to be able to direct dispatch. Transfer, relay, and referral of an emergency call to an entity other than an answering point or the Illinois State Police shall not be used in response to emergency calls unless exigent circumstances exist.
Transfers (ETSB Sec. 17.5(d))

Unless exigent circumstances dictate otherwise, each 9-1-1 system's public safety telecommunicators shall be responsible for remaining on the line with the caller when a 9-1-1 call originates within its jurisdiction to ensure the 9-1-1 call is transferred to the appropriate authorized entity for answer and dispatch until a public safety telecommunicator is on the line and confirms jurisdiction for the call.

Uniform Statewide Surcharge

$1.50 surcharge assessed on wireline, wireless and VoIP service

3% prepaid wireless fee on retail transactions
Pre-Paid Wireless 9-1-1 Fee

This charge is different than a surcharge assessed on each phone.

It is a fee calculated using a specific percentage charged on prepaid services collected at the point of sale by the retailer.
The pre-paid surcharge collected by the retailer is remitted to the Illinois Department of Revenue without any subscriber location information.

The Department of Revenue remits the surcharge to the ISP.

9-1-1 Systems receive pre-paid surcharge as a part of their monthly surcharge distribution.

The distribution of pre-paid funds is based upon the ratio of “post-paid” wireless customers (billed monthly) within a 9-1-1 system.
Chicago 9-1-1 Surcharge

$5.00 surcharge assessed on wireline, wireless and VoIP service. Required to reduce the amount to its original $2.50 surcharge on January 1, 2024.

9% prepaid wireless surcharge per retail transaction. Required to reduce the percentage back to 7% per retail transaction on January 1, 2024.
9-1-1 Surcharge Distribution Breakdown

1.74% Carrier Reimbursement for expense of Accounting and Collecting Surcharge est. 1.1¢
Sec. 20(a)(2)(d)

1.3¢ per line distributed monthly in equal amounts to County ETSB’s with a population under 100,000
Sec. 30(b)(1)(A)

1.7¢ per line for Department’s Administrative Costs
Sec. 30(b)(1)(C)

4¢ to 9-1-1 Authorities taking Wireless 9-1-1 (based on Zip Code)
Sec. 30(b)(1)(D)

5¢ per line for Grants for NG9-1-1 Expenses (Until 6/30/23)
Sec. 30(b)(1)(E)
9-1-1 Surcharge Distribution Breakdown

- 13¢ per line for NG9-1-1 System Expenses

- Remaining funds distributed to all 911 Authorities based on Wireless Zip Codes
  Sec. 30(b)(2)(E)
9-1-1 Surcharge Distribution Breakdown

• Of the $1.50 collected in surcharge, it is estimated that approximately $1.39 goes to the direct benefit of the 9-1-1 Authorities through:
  • Small County Distributions
  • NG9-1-1 Grants
  • Consolidation Grants
  • Payment of Network Costs
  • Payment for the Implementation & Continuing Expenses of the Statewide NG9-1-1 System
  • Direct Disbursements to 9-1-1 Authorities
FCC Report & Order – 2021

• Defines the types of expenditures of 911 fees by states and taxing jurisdictions that are acceptable under the criterion established in Section 902 and the types of expenditures that constitute 911 fee diversion;

• Allows states and taxing jurisdictions to petition the Commission for a determination that expenditures of 911 fees not previously designated as acceptable by the Commission should be treated as acceptable under Section 902;

(a) Acceptable purposes and functions for the obligation or expenditure of 911 fees or charges for purposes of section 902 are limited to:

• (1) Support and implementation of 911 services provided by or in the State or taxing jurisdiction imposing the fee or charge; and

• (2) Operational expenses of public safety answering points within such State or taxing jurisdiction.
(b) Examples of acceptable purposes and functions include, but are not limited to, the following, provided that the State or taxing jurisdiction can adequately document that it has obligated or spent the fees or charges in question for these purposes and functions:

- (1) **PSAP operating costs**, including lease, purchase, maintenance, replacement, and upgrade of customer premises equipment (CPE) (hardware and software), computer aided dispatch (CAD) equipment (hardware and software), and the PSAP building/facility and including NG911, cybersecurity, pre-arrival instructions, and emergency notification systems (ENS). PSAP operating costs include technological innovation that supports 911;

- (2) **PSAP personnel costs**, including telecommunicators’ salaries and training;
(3) **PSAP administration**, including costs for administration of 911 services and travel expenses associated with the provision of 911 services;

(4) **Integrating public safety/first responder dispatch and 911 systems**, including lease, purchase, maintenance, and upgrade of CAD hardware and software to support integrated 911 and public safety dispatch operations; and

(5) **Providing for the interoperability of 911 systems with one another and with public safety/first responder radio systems**.
(c) Examples of purposes and functions that are not acceptable for the obligation or expenditure of 911 fees or charges for purposes of section 902 include, but are not limited to, the following:

• (1) Transfer of 911 fees into a State or other jurisdiction’s general fund or other fund for non-911 purposes;

• (2) Equipment or infrastructure for constructing or expanding non-public safety communications networks (e.g., commercial cellular networks); and

• (3) Equipment or infrastructure for law enforcement, firefighters, and other public safety/first responder entities that does not directly support providing 911 services.
Only 9-1-1 related expenses are acceptable.

Section 35 of the Act and the FCC Report & Order define acceptable expenditures.

The ETSB is responsible for reviewing and ensuring that expenses are approved in accordance with Section 35 and the FCC Report & Order.

Surcharge funds cannot be distributed to local governmental entities to spend at their discretion.
