

Illinois State Police Safety Education

One of the goals of the Illinois State Police is to: "Improve the quality of life for our citizens through unimpeachable integrity, public service, training and education." The Illinois State Police Safety Education Unit helps fulfill that goal by offering a wide range of programs to civic groups, social clubs, classrooms, etc. District Safety Education Officers are available to present the following safety education programs:

Seat Belt Convincer

The seat belt convincer is a ride that simulates a 5-7 MPH crash. Sitting in a chair, 20 feet from impact, passengers buckle their seat belt and slide down an incline to experience what it feels like to be involved in a crash. Although the crash is very minor, it demonstrates the importance of why people should buckle up.

DUI/Texting While Driving Simulators

Using a computer simulator, or golf cart, drivers are able to experience the dangers of texting while driving in a controlled environment. Used in conjunction with "drunk" goggles, the same two devices can also be used to demonstrate the dangers of driving under the influence of drugs or alcohol.

Roll-Over Crash Simulator

The roll-over crash simulator demonstrates what can happen to passengers if they are not buckled up and are involved in a roll-over crash. Dummies are placed into the cab of the truck and then the cab rotates around. At first the dummies are wearing seatbelts and they remain in the truck, then the seatbelts are removed and the dummies are thrown from the truck.

All programs are FREE and can be tailored for all ages (pre K and up), including parents and teachers. If you would like more information please contact:
